## **SCHOOL BEAUTIFICATION PROJECT**

### **Client**

The Department of Public Works

### **Objective**

- Introduce the programme to all beneficiaries in the Western Cape. The programme is aimed at the beautification of schools, thus contributing towards the environment and their aesthetic image. It also seeks to improve the quality of basic education and to create decent employment as well as sustainable communities.
- Articulate the programme's objectives, scope and deliverables
- Address and refer queries and issues appropriately and efficiently
- Manage stakeholder expectations
- Identify potential risks and develop of mitigation plans
- Assist in the establishment of Project Steering Committees

### **Tactics Employed**

- The 100 schools were divided into 6 clusters and 6 facilitators were tasked with engaging the schools
- School principals were given a brief introduction telephonically and were tasked to invite all relevant stakeholders to induction meetings
- Follow-ups were made to ensure that meetings were set up
- Induction meetings were facilitated at all the 100 schools
- Distribution, completion and collection of all relevant documentation related to the project

### **Outcomes**

- All 100 school were contacted and induction meetings were successfully held
- Positive responses and support were received from all stakeholders
- Project steering committees were successfully established at all the schools
- All returnable documents were collected from the schools and ward councillors
