Khayelitsha Human Settlement Strategy

Client

City of Cape Town's Urban Renewal Programme

Objectives

Facilitate a conference (Summit) to discuss proposals for an integrated housing strategy for Khayelitsha. Such a strategy had to incorporate the following dimensions:

- Investigate forces shaping Khayelitsha's population growth and how the rapid population growth can be managed proactively
- Investigate instruments and policies appropriate to accelerate integrated human settlement development in the township and how these can be strengthened?
- Investigate how policies can be combined within an effective programme for Khayelitsha's Integrated Human Settlement
- Determine challenges of an informal-settlements programme within such a broader strategy
- Identify strategic partners who can help accelerate such an integrated human-settlement process
- Identify land parcels available for such integrated and accelerated development
- Advise on institutional adjustments needed to smoothen and help accelerate these settlement process

Tactics employed

- Stakeholder participation meetings
- Primary and secondary research
- Compiling databases
- Sending out invitations for the Summit
