Development of the Roll-Out and implementation Plan of the Urban Programme to 18 areas of Cape Town

Client

City of Cape Town

Objectives

The City of Cape Town commissioned Buyolo Business Advisory Services to investigate the roll-out process of the Urban Renewal Programme to the 18 areas that seemed to justify such focused, additional (financial) support. With respect to these areas an implementation plan and a resource plan was prepared.

Tactics employed

- Conducted socio-economic profiles for the 18 areas,
- Identified key stakeholders in the areas and conducted interviews with them about priority development projects suitable for URP roll-out funding,
- Conducted needs-assessments for each of the areas,
- Reviewed existing/planned government, private-sector and civil-society interventions aimed at addressing local development needs,
- Prioritised development interventions for the 18 areas.

Outcomes

- Profiled the 18 areas
- Outlined development projects for all 18 areas
- Identified the private and public sector partners and support agencies relevant to the 18 areas
- Developed implementation and resource plans
