PROJECT TESTIMONIAL

This letter serves to confirm that Buyolo Business Advisory Services was contracted by the Arts and Culture Department for a three month period in 2014 to complete a needs analysis investigating performing arts education and training within the Cape Town area.

The study aimed to address, inter alia, the following specific issues:

- a) to obtain a proper understanding of the various elements, inter-dependencies and challenges facing the performing arts education sector
- b) to obtain a detailed understanding of the identified sector needs in Cape Town and provide recommendations of how Council should respond to them
- c) to establish a hierarchy of key problems/challenges in the sector and develop a response analysis and action plan

Based on their professionalism, reliability, hard work, and the quality of their work I recommend them.

Yours sincerely,

A handwritten signature in black ink, consisting of a stylized 'N' followed by a horizontal line.
